

The cemetery is impeccably maintained with well thought out landscaping and several large memorials. Our non-sectarian cemetery enjoys a professional relationship with all the communities' partners in faith and service people of all religions, races and creeds.

Who We Are

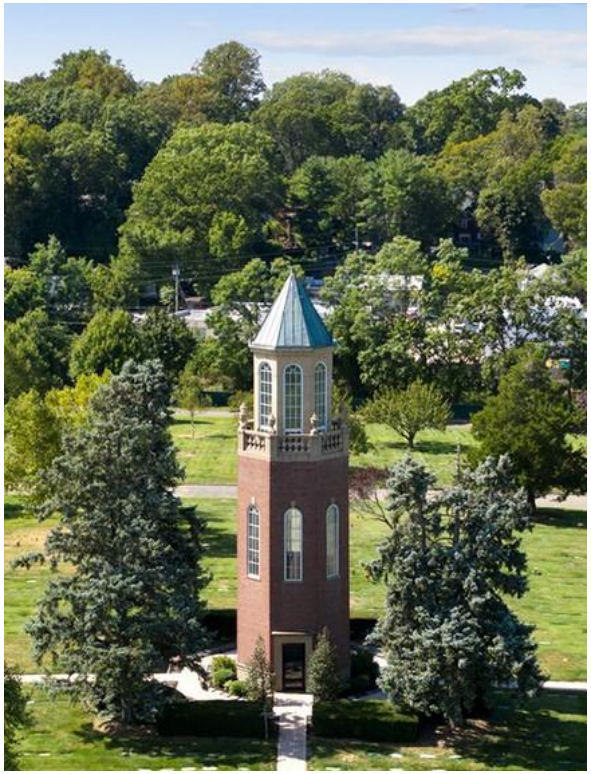

Established in 1900, the Nassau Knolls Cemetery property is about 40 acres and features more than 25 different sections for in ground, mausoleum crypt, monumental or cremation burial. Nassau Knolls Cemetery & Memorial Park is conveniently located in Nassau County on the north shore of Long Island on Port Washington Boulevard.

TOWER

ATRIUM

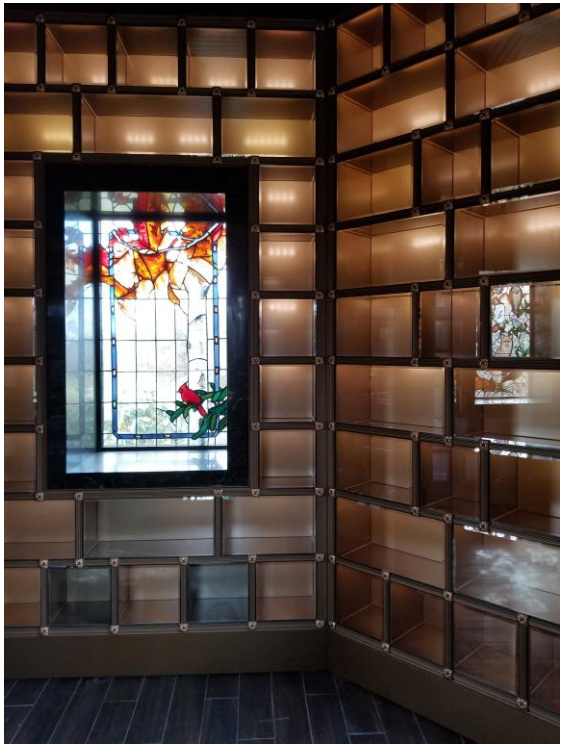

We have updated our historic Chimes Tower to play The Chimes once again after 50 years of silence, and created a breathtaking glass niche columbarium inside the tower with dramatic views of seasonal stained glass windows.

Our glass-front niches allow a more personalized memorial tribute while enjoying a peaceful and secure climate-controlled atmosphere for your family to pay their respects all year round. Our dignified granite mausoleums and columbarium provide above ground interment options in a serene setting.

We offer many different options from single niches to niches that can hold up to three urns.

Glass niches range between ***$4,500.00 to $9,500.00*** *depending on location*

It's difficult to think about end of life planning and many people neglect to leave instructions for final disposition. Our compassionate and experienced staff is ready to help you. We provide interest free financing for pre-need plot sales with payments up to three years.
